The Environmental Protection Agency (EPA) requires that each year, district workers and building occupants receive notification about asbestos activities such as response actions and inspections. The purpose of this correspondence is to meet those requirements and familiarize you with the asbestos related activities that have been conducted in Alpena-Montmorency-Alcona Education School District during the past year.

**Management Plans**

In 1988, Alpena-Montmorency-Alcona Education School District contracted with an environmental firm to conduct inspections for asbestos containing material (ACM) within all district owned buildings. This information was then compiled into Asbestos Management Plans. These Management Plans are located in the administrative office of Pied Piper Opportunity Center and are available for review.

**Surveillance Activities**

The AHERA regulation requires surveillance of the condition of ACM every six months and Reinspections every three years. The next periodic surveillance will be conducted in July 2020. Since the last Reinspection was conducted in 2018, the next Three-Year Reinspection will be conducted in August, 2021. Both of these surveillance activities will be included as part of the building’s Management Plans.

**Asbestos Abatement**

Alpena-Montmorency-Alcona Education School District has conducted asbestos abatement within its facilities in the last year. Over the past year, asbestos has been removed at Pied Piper Opportunity Center. The materials removed included, but were not limited to, pipe/pipe fitting insulation. Over the next year, asbestos will be removed from Pied Piper Opportunity Center. The materials to be removed include, but are not limited to, window caulk/glaze.

When asbestos is disturbed in our District, it is performed by Michigan Licensed Asbestos Abatement Contractors and managed by Nova Environmental, Inc., the districts environmental consulting firm.

All documentation regarding previous asbestos abatement projects, including air testing results, is available for review at Pied Piper Opportunity Center.
